

CALIFORNIA CODE OF REGULATIONS: TITLE 5
BEHAVIOR SECTIONS

5 CCR 3001 - Definitions

3001. In addition to those found in Education Code sections 56020-56033, Public Law 94-142 as amended (20 U.S.C. 1401 et seq.), and Title 34, Code of Federal Regulations, Part 300 and 301, the following definitions are provided:

(a) "Applicant" means an individual, firm, partnership, association, or corporation who has made application for certification as a nonpublic, nonsectarian school, or agency.

(b) "Assessment and development of the individualized education program" (IEP) means services described in Education Code sections 56320 et seq. and 56340 et seq.

(c) "Behavioral emergency" is the demonstration of a serious behavior problem: (1) which has not previously been observed and for which a behavioral intervention plan has not been developed; or (2) for which a previously designed behavioral intervention is not effective. Approved behavioral emergency procedures must be outlined in the special education local planning area (SELPA) local plan.

(d) "Behavioral intervention" means the systematic implementation of procedures that result in lasting positive changes in the individual's behavior. "Behavioral intervention" means the design, implementation, and evaluation of individual or group instructional and environmental modifications, including programs of behavioral instruction, to produce significant improvements in human behavior through skill acquisition and the reduction of problematic behavior. "Behavioral interventions" are designed to provide the individual with greater access to a variety of community settings, social contacts and public events; and ensure the individual's right to placement in the least restrictive educational environment as outlined in the individual's IEP. "Behavioral interventions" do not include procedures which cause pain or trauma. "Behavioral interventions" respect the individual's human dignity and personal privacy. Such interventions shall assure the individual's physical freedom, social interaction, and individual choice.

(e) "Behavioral intervention case manager" means a designated certificated school/district/county/nonpublic school or agency staff member(s) or other qualified personnel pursuant to subsection (ac) contracted by the school district or county office

or nonpublic school or agency who has been trained in behavior analysis with an emphasis on positive behavioral interventions. The "behavioral intervention case manager" is not intended to be a new staffing requirement and does not create any new credentialing or degree requirements. The duties of the "behavioral intervention case manager" may be performed by any existing staff member trained in behavior analysis with an emphasis on positive behavioral interventions, including, but not limited to, a teacher, resource specialist, school psychologist, or program specialist.

(f) "Behavioral intervention plan" is a written document which is developed when the individual exhibits a serious behavior problem that significantly interferes with the implementation of the goals and objectives of the individual's IEP. The "behavioral intervention plan" shall become part of the IEP. The plan shall describe the frequency of the consultation to be provided by the behavioral intervention case manager to the staff members and parents who are responsible for implementing the plan. A copy of the plan shall be provided to the person or agency responsible for implementation in noneducational settings. The plan shall include the following:

- (1) a summary of relevant and determinative information gathered from a functional analysis assessment;
- (2) an objective and measurable description of the targeted maladaptive behavior(s) and replacement positive behavior(s);
- (3) the individual's goals and objectives specific to the behavioral intervention plan;
- (4) a detailed description of the behavioral interventions to be used and the circumstances for their use;
- (5) specific schedules for recording the frequency of the use of the interventions and the frequency of the targeted and replacement behaviors; including specific criteria for discontinuing the use of the intervention for lack of effectiveness or replacing it with an identified and specified alternative;
- (6) criteria by which the procedure will be faded or phased-out, or less intense/frequent restrictive behavioral intervention schedules or techniques will be used;
- (7) those behavioral interventions which will be used in the home, residential facility, work site or other noneducational settings; and
- (8) specific dates for periodic review by the IEP team of the efficacy of the program.

(aa) "Serious behavior problems" means the individual's behaviors which are self-injurious, assaultive, or cause serious property damage and other severe behavior problems that are

pervasive and maladaptive for which instructional/behavioral approaches specified in the student's IEP are found to be ineffective.

5 CCR 3052 - Behavioral Intervention Plans

3052. (a) General Provisions.

(1) An IEP team shall facilitate and supervise all assessment, intervention, and evaluation activities related to a individual's behavioral intervention plan. When the behavioral intervention plan is being developed, the IEP team shall be expanded to include the behavioral intervention case manager with documented training in behavior analysis including positive behavioral intervention(s), qualified personnel knowledgeable of the student's health needs, and others as described in Education Code Section 56341(c)(2). The behavioral intervention case manager is not intended to be a new staff person and may be an existing staff member trained in behavior analysis with an emphasis on positive behavioral interventions.

(2) Behavioral intervention plans shall only be implemented by, or be under the supervision of, staff with documented training in behavior analysis, including the use of positive behavioral interventions. Such interventions shall only be used to replace specified maladaptive behavior(s) with alternative acceptable behavior(s) and shall never be used solely to eliminate maladaptive behavior(s).

(3) Behavioral intervention plans shall be based upon a functional analysis assessment, shall be specified in the individualized education program, and shall be used only in a systematic manner in accordance with the provisions of this section.

(4) Behavioral emergency interventions shall not be used as a substitute for behavioral intervention plans.

(5) The elimination of any maladaptive behavior does not require the use of intrusive behavioral interventions that cause pain or trauma.

(6) To the extent possible, behavioral intervention plans shall be developed and implemented in a consistent manner appropriate to each of the individual's life settings.

(b) Functional Analysis Assessments. A functional analysis assessment must be conducted by, or be under the supervision of a person who has documented training in behavior analysis with an emphasis on positive behavioral interventions. A functional analysis assessment shall occur after the individualized education program team finds that

instructional/behavioral approaches specified in the student's IEP have been ineffective. Nothing in this section shall preclude a parent or legal guardian from requesting a functional analysis assessment pursuant to the provisions of Education Code sections 56320 et seq.

Functional analysis assessment personnel shall gather information from three sources: direct observation, interviews with significant others, and review of available data such as assessment reports prepared by other professionals and other individual records. Prior to conducting the assessment, parent notice and consent shall be given and obtained pursuant to Education Code Section 56321.

(1) A functional analysis assessment procedure shall include all of the following:

(A) Systematic observation of the occurrence of the targeted behavior for an accurate definition and description of the frequency, duration, and intensity;

(B) Systematic observation of the immediate antecedent events associated with each instance of the display of the targeted inappropriate behavior;

(C) Systematic observation and analysis of the consequences following the display of the behavior to determine the function the behavior serves for the individual, i.e., to identify the specific environmental or physiological outcomes produced by the behavior. The communicative intent of the behavior is identified in terms of what the individual is either requesting or protesting through the display of the behavior;

(D) Ecological analysis of the settings in which the behavior occurs most frequently. Factors to consider should include the physical setting, the social setting, the activities and the nature of instruction, scheduling, the quality of communication between the individual and staff and other students, the degree of independence, the degree of participation, the amount and quality of social interaction, the degree of choice, and the variety of activities;

(E) Review of records for health and medical factors which may influence behaviors (e.g. medication levels, sleep cycles, health, diet); and

(F) Review of the history of the behavior to include the effectiveness of previously used behavioral interventions.

(2) Functional Analysis Assessment Reports. Following the assessment, a written report of the assessment results shall be prepared and a copy shall be provided to the parent. The report shall include all of the following:

(A) A description of the nature and severity of the targeted behavior(s) in objective and measurable terms;

(B) A description of the targeted behavior(s) that includes baseline data and an analysis of the antecedents and consequences that maintain the targeted behavior, and a functional analysis of the behavior across all appropriate settings in which it occurs;

(C) A description of the rate of alternative behaviors, their antecedents and consequences; and

(D) Recommendations for consideration by the IEP team which may include a proposed plan as specified in Section 3001(f).

(c) IEP Team Meeting. Upon completion of the functional analysis assessment, an IEP team meeting shall be held to review results and, if necessary, to develop a behavioral intervention plan, as defined in Article 1, Section 3001(f) of these regulations. The IEP team shall include the behavioral intervention case manager. The behavioral intervention plan shall become a part of the IEP and shall be written with sufficient detail so as to direct the implementation of the plan.

(d) Intervention. Based upon the results of the functional analysis assessment, positive programming for behavioral intervention may include the following:

(1) Altering the identified antecedent event to prevent the occurrence of the behavior (e.g., providing choice, changing the setting, offering variety and a meaningful curriculum, removing environmental pollutants such as excessive noise or crowding, establishing a predictable routine for the individual);

(2) Teaching the individual alternative behaviors that produce the same consequences as the inappropriate behavior (e.g., teaching the individual to make requests or protests using socially acceptable behaviors, teaching the individual to participate with alternative communication modes as a substitute for socially unacceptable attention-getting behaviors, providing the individual with activities that are physically stimulating as alternatives for stereotypic, self-stimulatory behaviors);

(3) Teaching the individual adaptive behaviors (e.g., choice-making, self-management, relaxation techniques, and general skill development) which ameliorate negative conditions that promote the display of inappropriate behaviors; and

(4) Manipulating the consequences for the display of targeted inappropriate behaviors and alternative, acceptable behaviors so that it is the alternative behaviors that more effectively produce desired outcomes (i.e., positively reinforcing alternative and other acceptable behaviors and ignoring or redirecting unacceptable behaviors).

(e) Acceptable Responses. When the targeted behavior(s) occurs, positive response options shall include, but are not

limited to one or more of the following:

- (1) the behavior is ignored, but not the individual;
- (2) the individual is verbally or verbally and physically redirected to an activity;
- (3) the individual is provided with feedback (e.g., "You are talking too loudly");
- (4) the message of the behavior is acknowledged (e.g., "You are having a hard time with your work"); or
- (5) a brief, physical prompt is provided to interrupt or prevent aggression, self-abuse, or property destruction.

(f) Evaluation of the Behavioral Intervention Plan Effectiveness. Evaluation of the effectiveness of the behavioral intervention plan shall be determined through the following procedures:

- (1) Baseline measure of the frequency, duration, and intensity of the targeted behavior, taken during the functional analysis assessment. Baseline data shall be taken across activities, settings, people, and times of the day. The baseline data shall be used as a standard against which to evaluate intervention effectiveness;
- (2) Measures of the frequency, duration, and intensity of the targeted behavior shall be taken after the behavioral intervention plan is implemented at scheduled intervals determined by the IEP team. These measures shall also be taken across activities, settings, people, and times of the day, and may record the data in terms of time spent acting appropriately rather than time spent engaging in the inappropriate behavior;
- (3) Documentation of program implementation as specified in the behavioral intervention plan (e.g., written instructional programs and data, descriptions of environmental changes); and
- (4) Measures of program effectiveness will be reviewed by the teacher, the behavioral intervention case manager, parent or care provider, and others as appropriate at scheduled intervals determined by the IEP team. This review may be conducted in meetings, by telephone conference, or by other means, as agreed upon by the IEP team.

(5) If the IEP team determines that changes are necessary to increase program effectiveness, the teacher and behavioral intervention case manager shall conduct additional functional analysis assessments and, based on the outcomes, shall propose changes to the behavioral intervention plan.

(g) Modifications Without IEP Team Meeting. Minor modifications to the behavioral intervention plan can be made by the behavioral intervention case manager and the parent or parent representative. If the case manager is unavailable, a

qualified designee who meets the training requirements of subsection (a)(1) shall participate in such modifications. Each modification or change shall be addressed in the behavioral intervention plan provided that the parent, or parent representative, is notified of the need and is able to review the existing program evaluation data prior to implementing the modification or change. Parents shall be informed of their right to question any modification to the plan through the IEP procedures.

(h) Contingency Behavioral Intervention Plans. Nothing in this section is intended to preclude the IEP team from initially developing the behavioral intervention plan in sufficient detail to include schedules for altering specified procedures, or the frequency or duration of the procedures, without the necessity for reconvening the IEP team. Where the intervention is to be used in multiple settings, such as the classroom, home and job sites, those personnel responsible for implementation in the other sites must also be notified and consulted prior to the change.

(i) Emergency Interventions. Emergency interventions may only be used to control unpredictable, spontaneous behavior which poses clear and present danger of serious physical harm to the individual or others and which cannot be immediately prevented by a response less restrictive than the temporary application of a technique used to contain the behavior.

(1) Emergency interventions shall not be used as a substitute for the systematic behavioral intervention plan that is designed to change, replace, modify, or eliminate a targeted behavior.

(2) Whenever a behavioral emergency occurs, only behavioral emergency interventions approved by the special education local planning area (SELPA) may be used.

(3) No emergency intervention shall be employed for longer than is necessary to contain the behavior. Any situation which requires prolonged use of an emergency intervention shall require staff to seek assistance of the school site administrator or law enforcement agency, as applicable to the situation.

(4) Emergency interventions may not include:

(A) Locked seclusion, unless it is in a facility otherwise licensed or permitted by state law to use a locked room;

(B) Employment of a device or material or objects which simultaneously immobilize all four extremities, except that techniques such as prone containment may be used as an emergency intervention by staff trained in such procedures; and

(C) An amount of force that exceeds that which is reasonable and necessary under the circumstances.

(5) To prevent emergency interventions from being used in lieu of planned, systematic behavioral interventions, the parent and residential care provider, if appropriate, shall be notified within one school day whenever an emergency intervention is used or serious property damage occurs. A "Behavioral Emergency Report" shall immediately be completed and maintained in the individual's file. The report shall include all of the following:

- (A) The name and age of the individual;
- (B) The setting and location of the incident;
- (C) The name of the staff or other persons involved;
- (D) A description of the incident and the emergency intervention used, and whether the individual is currently engaged in any systematic behavioral intervention plan; and
- (E) Details of any injuries sustained by the individual or others, including staff, as a result of the incident.

(6) All "Behavioral Emergency Reports" shall immediately be forwarded to, and reviewed by, a designated responsible administrator.

(7) Anytime a "Behavioral Emergency Report" is written regarding an individual who does not have a behavioral intervention plan, the designated responsible administrator shall, within two days, schedule an IEP team meeting to review the emergency report, to determine the necessity for a functional analysis assessment, and to determine the necessity for an interim behavioral intervention plan. The IEP team shall document the reasons for not conducting the assessment and/or not developing an interim plan.

(8) Anytime a "Behavioral Emergency Report" is written regarding an individual who has a behavioral intervention plan, any incident involving a previously unseen serious behavior problem or where a previously designed intervention is not effective should be referred to the IEP team to review and determine if the incident constitutes a need to modify the plan.

(9) "Behavioral Emergency Report" data shall be collected by SELPAs which shall report annually the number of Behavioral Emergency Reports to the California Department of Education and the Advisory Commission on Special Education.

(j) SELPA Plan. The local plan of each SELPA shall include procedures governing the systematic use of behavioral interventions and emergency interventions. These procedures shall be part of the SELPA local plan.

(1) Upon adoption, these procedures shall be available to all staff members and parents whenever a behavioral intervention plan is proposed.

(2) At a minimum, the plan shall include:

(A) The qualifications and training of personnel to be designated as behavioral intervention case managers, which shall include training in behavior analysis with an emphasis on positive behavioral interventions, who will coordinate and assist in conducting the functional analysis assessments and the development of the behavioral intervention plans;

(B) The qualifications and training required of personnel who will participate in the implementation of the behavioral intervention plans; which shall include training in positive behavioral interventions;

(C) Special training that will be required for the use of emergency behavioral interventions and the types of interventions requiring such training; and

(D) Approved behavioral emergency procedures.

(k) Nonpublic School Policy. Nonpublic schools and agencies, serving individuals pursuant to Education Code Section 56365 et seq., shall develop policies consistent with those specified in subsection (i) of this section.

(l) Prohibitions. No public education agency, or nonpublic school or agency serving individuals pursuant to Education Code Section 56365 et seq., may authorize, order, consent to, or pay for any of the following interventions, or any other interventions similar to or like the following:

(1) Any intervention that is designed to, or likely to, cause physical pain;

(2) Releasing noxious, toxic or otherwise unpleasant sprays, mists, or substances in proximity to the individual's face;

(3) Any intervention which denies adequate sleep, food, water, shelter, bedding, physical comfort, or access to bathroom facilities;

(4) Any intervention which is designed to subject, used to subject, or likely to subject the individual to verbal abuse, ridicule or humiliation, or which can be expected to cause excessive emotional trauma;

(5) Restrictive interventions which employ a device or material or objects that simultaneously immobilize all four extremities, including the procedure known as prone containment, except that prone containment or similar techniques may be used by trained personnel as a limited emergency intervention pursuant to subsection (i);

(6) Locked seclusion, except pursuant to subsection (i)(4)(A);

(7) Any intervention that precludes adequate supervision of the individual; and

(8) Any intervention which deprives the individual of one

or more of his or her senses.

(m) **Due Process Hearings.** The provisions of this chapter related to functional analysis assessments and the development and implementation of behavioral intervention plans are subject to the due process hearing procedures specified in Education Code Section 56501 et seq. No hearing officer may order the implementation of a behavioral intervention that is otherwise prohibited by this section, by SELPA policy, or by any other applicable statute or regulation.
